Wednesday, January 26th 2011

Biomedical Research Foundation Academy of Athens

A TransMed sponsored WORKSHOP:

“From preclinical translational research to systems medicine”

- 9:20 Welcoming Address
George P. Chrousos, MD, MACP, MACE Professor of Pediatrics, Athens University Medical School. Director, Clinical Research Center, BRFAA
- 9:30 Review of TransMed activities
Katia P. Karalis, MD, DSc Developmental Biology, Center for Basic Research, BRFAA
- 9:45 Cellular population genomics in Human
Manolis Dermitzakis, PhD University of Geneva Medical School
- 10:15 Target Discovery, Validation, and Therapeutic Antibody Development Using Genome Engineering Approaches
Aris Economides, PhD Regeneron Inc, Tarrytown, NY
- 10:45 Systems Biology and Genetics of Health and Disease
Joe Nadeau, PhD Director of Research and Academic Affairs, Institute for Systems Biology, Seattle
- 11:30 **Anna Anagnostopoulos, PhD** Jackson Laboratories, ME
- 11:50 EU Collaborative Research in Health and Systems Biology: From Systems Biology to Systems Medicine?
Christina Kyriakopoulou, PhD Scientific officer, European Commission, Directorate-General for Research Directorate F (Health) Unit F.4: Advanced therapies & Systems Medicine
- 12:20 Lunch Break
- 13:15 Panel discussion: “The road from Translational Research to Systems Medicine”

Panel participants: **Anna Anagnostopoulos, Manolis Dermitzakis, Aris Economides, Argiris Efstratiadis, Christina Kyriakopoulou, Joe Nadeau, George Thireos**
- 14:45 End of the workshop
