Call for applications for the academic year 2018-19

The Department of Informatics and Telecommunications of the National and Kapodistrian University of Athens, in collaboration with the "ATHENA" Research Center and the Biomedical Research Foundation, Academy of Athens, invites applications for graduate admission to the new Postgraduate Program "Data and Information Technologies" offering two specializations:

1. Big data and Artificial Intelligence
2. Βιοπληροφορική – Επιστήμη Βιοϊατρικών Δεδομένων (Bioinformatics – Biomedical Data Science)

The goal of the post graduate program **Data Science and Information Technologies** (DSIT) is to provide high-quality education in the fields of Informatics, Data Science, Artificial Intelligence, Machine Learning and Bioinformatics. The two specializations have been designed according to European and international standards for postgraduate programs, as well as to meet the needs of the greek and european job market. The courses will be taught in English.

The duration of postgraduate studies is set to three (3) academic semesters (90 ECTS), including one (1) semester for the completion of the Graduate Thesis (30 ECTS). First (Bachelor's) degree holders in Computer Science, Mathematics, Applied Mathematics, Engineering, Biology, Medicine and related subjects from Greek or foreign Universities are welcomed to apply. Graduates of foreign institutions should check carefully the website of the Hellenic NARIC organization (<http://www.doatap.gr/en/>) regarding required first degree recognition procedures.

More information, including the application form, the necessary supporting documents, the curriculum and the students selection procedure are provided in the Postgraduate Program's Rules and Regulations document on the website: <http://itmb.di.uoa.gr/dsitEng.html>

Applications are accepted **up to 24-08-2018** in printed form every Monday, Wednesday and Friday from 11:00 to 14:00, or can be mailed (**but need to be delivered by 24-08-2018**) in the following address:
